Indicative setting. North is up. Section line A-A is marked.

I · Furniture study

INTERIOR

1:20 0 0.5 m

Enlarged room layout from the principal inhabited floor.

Envelope and structure

The roof lands on one side and lifts to shelter the seaward veranda. A thickened ring around the planted oculus stabilises the opening. Surface water exits through the landward service yard.

Environment and access

Monitor sand drift and salt exposure at the low edge. Size the court drain and overflow independently and keep both reachable from the garden path.
