Indicative setting. North is up. Section line A-A is marked.

Envelope and structure

Independent dwelling frames meet at a continuous party wall. The white ribbon dips above that wall, then rises over two separate glazed fronts. A split gutter follows the low point so the two homes have independent rainwater services.

Environment and access

Provide acoustic and fire separation at the full party-wall height. The deep brow shades glazing and keeps the private garden thresholds sheltered in heavy rain.

Drawing key

- Cut envelope
- Glass / seal
- Section datum
- Internal wall
- Furniture / fitting
- Overhead / projected

24 × 16 m; two floors; 8 m crests.

Proposed dimensions and levels. Site surveys, engineering, fire strategy, accessibility and local approvals require project-specific verification before construction.
