Indicative setting. North is up. Section line A-A is marked.

Envelope and structure

Stone masonry encloses the core while cantilevered terrace slabs step toward the water. The writing ledge sits above a shorter lower tray. The hearth boulder sets the living-room floor datum.

Environment and access

Confirm flood levels and ecological limits before siting the bridge. Check cantilever deflection, freeze-thaw durability and water shedding at every terrace return.

Drawing key

- Cut envelope
- Glass / seal
- Section datum
- Internal wall
- Furniture / fitting
- Overhead / projected

24 × 17 m; two floors; 8 m upper parapet.

Proposed dimensions and levels. Site surveys, engineering, fire strategy, accessibility and local approvals require project-specific verification before construction.
